

Mohammed (Ehsan) Haque

SOFTWARE ENGINEERING LEADER, MENTOR, COACH & ARCHITECT

To: Hiring Manager

I am excited to have you review my application for the vacant position in your company. As a highly experienced engineer with a passion for leading teams and driving results, I believe I have the skills and experience necessary to excel in this role.

Looking at my resume and LinkedIn profile, you can see that I have a strong technical background and have held leadership roles throughout my career. I have successfully managed engineering teams for a variety of projects, from building and scaling high-performance systems to developing innovative products.

I am particularly proud of my work at Capital One, where I led several teams of engineers to design and develop a critical component of the company's enterprise customer servicing platform. Through this experience, I gained a deep understanding of how to manage large, complex projects and lead cross-functional teams.

In addition to my technical expertise, I am a skilled communicator and team builder. I have a proven track record of fostering positive and collaborative team environments and developing team members to their fullest potential. I am skilled to build engineering teams from scratch for high value and critical projects. I am drawn to the role because it closely aligns with my skill and experience.

Thank you for considering my application. I am confident that my skills, experience, and passion for engineering management make me an ideal fit for this role, and I look forward to the opportunity to discuss my candidacy further.

Sincerely,

From

Mohammed Haque
